

## Top Ten Reasons You Need

1. Spend Viz has been tailored for higher education purchasing departments. The Spend Viz team collaborated with university purchasing professionals in the creation of our spend analysis and contract tracking software to ensure academic institutions' needs are being fully addressed.
2. Spend Viz saves colleges millions of dollars every year. Cornell University's Procurement Department alone has achieved over \$31 million in annual savings.
3. The Spend Viz team is based in the United States and provides live support hours for all U.S. time zones.
4. Spending can be classified 100% with Spend Viz.
5. Multiple campuses, departments, and spending sources can all import their spend data into the Spend Viz system for thorough analysis and reporting.
6. The contract management module tracks the details of your vendor contracts and sends out alerts when contracts need attention.
7. The client relationship management and vendor relationship management features allow for e-mail campaigns, newsletters, news notices, SBA annual certification notices, insurance update reminders and more.
8. All reports and analyses can be exported into spreadsheets at the click of a button saving valuable time and resources.
9. Data remains on a secure university server under the university's control.
10. If Spend Viz is missing a report or tool that you need, we will add it to our base product at no additional cost or create custom for your institution at our standard custom rate.
